# Getting you home faster and stronger

Our staff prides itself on providing comprehensive short-stay rehabilitation services through our **VitalStrong™** program. VitalStrong™ has been developed to provide state-of-the-art clinical and rehabilitation services utilizing progressive technology, with clinical oversight by a physiatrist – a doctor of physical medicine and rehabilitation.

Our team of experts, including licensed physical and occupational therapists and speech language pathologists, provide therapy services up to seven days per week.

## Healthcare Services

- Physician and nurse practitioner services
- Around-the-clock nursing services
- VitalStrong™ - Comprehensive rehab services up to seven days a week featuring state-of-the-art rehab equipment and treatment modalities
- Physical therapy, occupation therapy and speech language therapy daily
- IV therapy with bedside PICC line placement when needed
- Pharmacy, laboratory and radiology services
- Nutritional services
- Case management and social services
- Therapeutic recreational activities

## State-of-the-Art Rehab Equipment

**Hawks Grips** – Manual soft tissue mobilization instruments used to break down scar tissue and other soft tissue restrictions.

**VitalStim** - Neuromuscular electrical stimulator which re-educates muscles involved in swallowing. The therapist can project a live session onto a computer screen for the patient to see real time results.

**Omnicycle** – Upper and lower extremity bicycle which provides visual biofeedback of performance.

**BITS: Bioness Integrated Therapy System** – Interactive touchscreen program for use in PT, OT and SLP. The computerized activities focus on visual scanning, visual motor, visual pursuit and cognition.

**Game Ready** – Cold compression system for musculoskeletal and soft tissue injuries.

**FEES** – Fiberoptic endoscopic evaluation of swallowing.

**E-Stim, Ultrasound, Diathermy and Vital Stim** are available at all FutureCare locations.
